

# LEE'S REVIEW

College Consulting Program

# Why Lee's Review?

## ❖ **Personality Matching and Career Counseling**

Our counselors take time to get to know our students on a personal level because we believe that productive consultations stem from mutual trust. From personality tests to career matching, our students receive informative, inspirational, and honest guidance regarding their futures.

## ❖ **Insightful Explanation of the College Application**

Our counselors carefully explain how college applications are affected by both well-known factors and lesser-known factors. Our goal is for our students to add as much value as possible to their holistic application while having no missed opportunities to showcase themselves.

## ❖ **Thorough Brainstorming Process**

Our counselors do not rush. Before committing to an essay topic, we discuss all possibilities with our students and ask them to write multiple drafts. We strongly believe that delving deeply into our students' stories and experiences results in the most reflective and insightful essays.

## ❖ **Tailored Writing Guidance**

Our counselors understand that no two students have the same writing style. As experienced writers, we provide several tools, strategies, and outlines based on the individual student's style in order to maximize their strengths and minimize their weaknesses.

## ❖ **Life Development Beyond College**

Our students' journeys do not end after finishing their college essays. Through both the essay writing process and compassionate conversations, we strive to set our students up for success not only in terms of academics but also mental health, work ethic, and passion for life.

# Freshmen/Sophomore Package I

*This is our premiere package offering both students and parents full access to all our resources and consulting expertise.*

## ❖ Academic Partnership
